

Continuing small changes towards sustainable museum practice at the Museum of Design in Plastics (MoDiP)

Dr Louise Dennis

Curator of MoDiP
Arts University Bournemouth

ARTS UNIVERSITY BOURNEMOUTH

Our commitment to implementing best environmental practice is demonstrated through...

- A commitment to the protection of the environment, including the prevention of pollution
- A commitment to fulfil its compliance obligations
- A commitment to continual improvement of the environmental management system to enhance environmental performance
- A commitment to never investing in fossil fuels

Environmental Sustainability

At AUB, we aim to make sure we're as environmentally sustainable as possible from campus building to student and staff training

Student Engagement

Find out how you can get involved with AUB's Green Team and be a little greener

Travel

To help the earth, AUB encourage students and staff to commute by sustainable means and provide incentives to travel sustainability

Fairtrade and Food

As a member of the Fairtrade scheme, AUB's committed to ensuring that healthy and sustainable food is available to students and staff

Sustainability awards

We're committed to recognising and promoting the brilliant work which students do in responding to the importance of sustainability

Environment and the curriculum

Biodiversity

Although we have limited green space on campus, we're committed to maximising our potential, increasing biodiversity

<https://aub.ac.uk/>

As a university, AUB converts creativity into careers. Through our operational plans we commit to promoting our identity as an innovative learning organisation, a university that creates exciting student experiences, premises disruptive thinking and nurtures cross-disciplinary practices. Underpinning our Strategy is a core commitment to diversity and inclusivity, and an environmentally sustainable future. Having already achieved platinum status as an Eco-Campus, during the lifetime of this strategy we will embrace the spirit and practices of the United Nations *Sustainable Development Goals* across all aspects of AUB's teaching, research and engagement. Our historically close relationship with the AUB Students' Union and our collaborative association with workforce representatives will act as an effective platform to curate and deliver the objectives embedded in each of these plans.

Stay in touch by [subscribing](#) to the AUB Engage mailing list after reading our [Privacy policy](#).

Current Exhibition: [Reuse](#)

The objects on display within this exhibition demonstrate ways in which the reuse of raw materials, as well as products, help to reduce our reliance on single-use plastics. They also show how products can be created to support recycling at the end of their useful life, and the variety of ways a single recycling resource can be used.

Before your visit to MoDiP please check for any planned closures advertised on the [visiting us](#) page.
